

Name of Lab:

Problem: (State as a question)

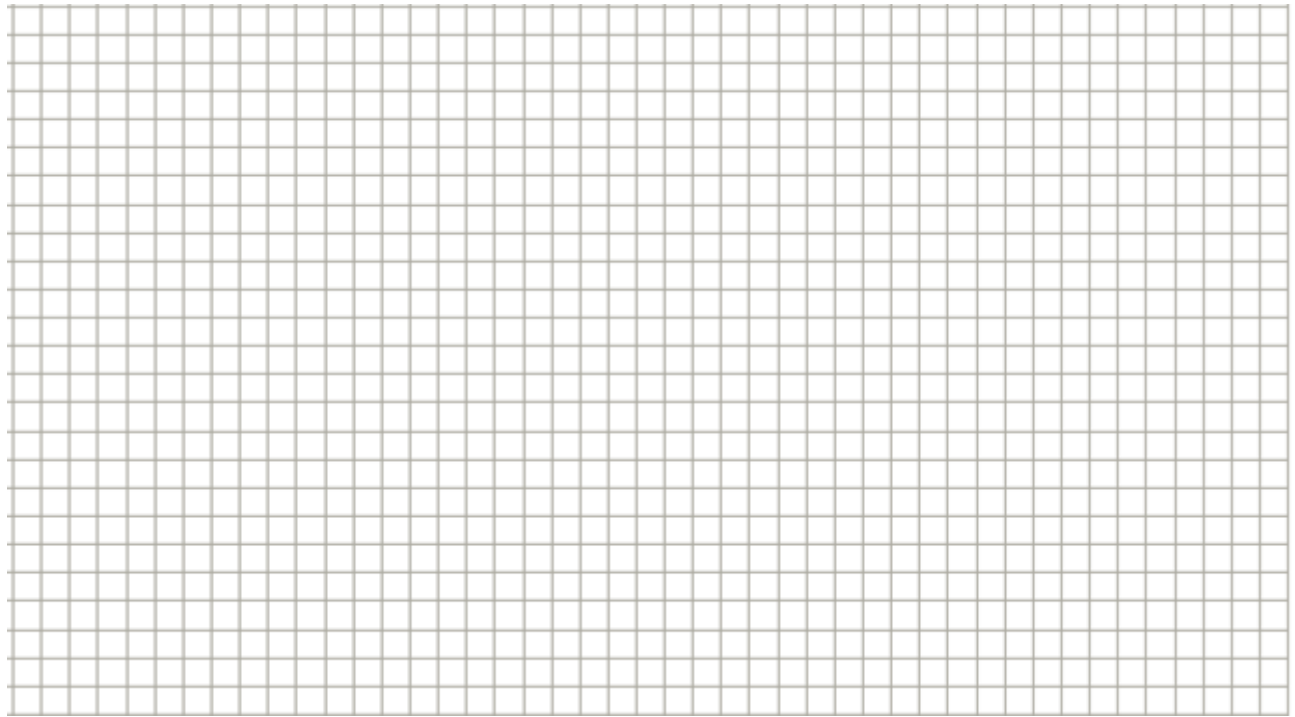

Hypothesis: (If...then...)

The independent variable is:

The dependent variable is:

| | TRIAL ONE | TRIAL TWO | TRIAL THREE | AVERAGE |
|--|-----------|-----------|-------------|---------|
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

What is your control group?

Evaluate the hypothesis: (Did your data support/not support your hypothesis?)

Conclusion: (How does your data support/not support the hypothesis?)

Possible future investigations from this experiment:
